Synopsis

LIMITED TIME BONUS INCLUDED: FREE Ebook and Report Reveals How to Improve Your Marriage Today. Learn How To Save And Rebuild Your Connection, Trust, Communication And Intimacy This book has actionable steps and strategies on how to save your marriage and build trust, communication and intimacy. •And they lived happily ever after• That sounds like something out of a fairytale but every couple wishes for a "happily ever after"™ when they are tying the knot (except if one or both of them are serious pessimists or sadists). Sadly however, very few couples get to experience this sweet, fairytale kind of marriage. In fact, divorce rates are at an all time high with fifty percent of marriages consummated resulting in divorce or separations. Don't let anyone fool you; marriage is tough work, and it takes a lot of determination and willpower to sustain it. Imagine having to live with, and deal with the same person for ten years, fifteen years, thirty years or more. Along the line, you might start to feel more like siblings rather than lovers. Your problems may become as simple as a loss of spark in the relationship where you were once madly in love and suddenly do not feel as crazy in love as you used to be. Then it spirals into other relationship problems like lack of intimacy, lack of connection and lack of trust. If left unchecked, the couple drifts far away from each other and the relationship is damaged and before you know it, you are headed for divorce. The good news is that your marriage doesn't have to feel like a prison sentence. You can enjoy your marriage. This book will help you do just that by looking at how to bring back the spark, fun, trust and intimacy back into your marriage. In This Book You'll Learn... The Cold Hard Truth about Marriage How To Improve Communication How To Rebuild Connection How To Rebuild Trust How To Rebuild Intimacy And much more! Download Now to Learn how to Save And Rebuild Your Connection, Trust, Communication And Intimacy..and get a FREE BONUS eBook and report on how to start improving your marriage today. This book caught my attention while I was looking for something to read the other day. The book is about the reality of marriage and how you can make the marriage stronger. When my parents got a divorce, I felt that all marriages fall apart no matter how long you have been together. My parents were childhood sweethearts, but their marriage suddenly fell apart. When I read the book, I have realized why their marriage fell apart. They become distant with each other because they have been busy with their careers. They did not have time to talk or even eat dinner together. When they argue, they are always the winners of it. Through this book, I have learned that communication and time for each other are the building blocks of marriage aside from the love. Thumbs up to the author for writing this valuable book!

This book is very lovely. The ideas, messages, advises and concepts of the author are wonderful and worth putting to practice. One of the prevailing issues individuals that are married face as the years go by is lack of intimacy, but this book addresses how this can be worked on and helped. It focuses on effective communication as the key to achieving the much needed intimate and healthy relationship that should be found between couples. When I get married, I hope to apply all I have gathered while reading this book because it is an entire wealth of knowledge.

My friend referred me to this book after she read it. We used to always get together for coffee and complain about our husbands. lol. But after she read this book she said she couldn't talk about her husband like that anymore and that things have been a lot better. I read it and right away in the first sentence I felt it was pretty harsh, but I think I needed to hear that to realize I should be working on my marriage rather than ignoring the issues. It gave me a lot to think about now it will be putting it

into practice. I think I'll have to get the next book they previewed about self discipline. Lol

Marriages these days are breaking up like never before and the rate of divorced couples is so much but some times we fall in love with our better halves for the wrong reasons and we have to force our selves to adjust to reality which is not so easy to everyone. All marriages have challenges but that not a reason to divorce, the Author takes you through the Reality and gives tips like being Respectful, tolerant and patient while dealing with a fellow adult. So have a good mind set toward this beautiful union and you will live happily together

This book confronts us in a very direct and personal way the topic of marriage. The author emphasizes that to make things work both must work and make joint efforts while seeking happiness. It is not an easy issue; however, I believe that the author was able to live in the grain with his way of expressing himself about the problems that frequently involve marriage.

In every relationship, communication and understanding really a the main thing in maintaining and keeping it strong as time goes by. I am not married yet, but I just got this one out of curiosity and I want have something to read about marriage and how to make it last. The contents of the book are informative, detailed and would make you realize every thing that it says. This book would be a great help especially for those who are already committed to their partners and already had their vows.

I am not yet married but planning to, and when you see yourself attached it seems all the disadvantages are what your eyes see, like the quarrels, the decisions and all. Saw this book and purchased it and well, I have learned a lot. Its tips, advises and inputs are all great that I am sure will be a big help not only to married couples but to couples as general. Worthy book.

When I was reading the title itself It really catches my attention, yes, It really put me in a moment to really grasp whats inside the book. I love every single bit how this book manage to laid down to couples to really see whats the reality of a married life. This really simplify how must a couple know each others differences and know that marriage will not work alone with only one working on it but must be handle by both couples along this journey. Also how communication play an important role on every single couple the very backbone of married life, also know the necessity of communication to save and to rebuild relationship. With this book it also shows some important points in which

every couple must know; trust, control emotions and building up once more the intimacy. It is really an eye opener and a very good tool to help those sinking relationships. I would love to recommend this book to those who are having hard time in their relationship as a couple and even to every single men and women who will one day plans to marry, this will surely give you a very good help and the basic thing to let your married life set its satisfaction. To the author thank you for this book and we are looking forward for more character and attitude molding books.
