Fire Born (City Of Dragons Book 5)

Synopsis

Penny Caspian again. Nine months pregnant. Big as a house. And there's another serial killer loose in Sea City. This guy uses compulsion to kill his victims, forces them to do it themselves, and makes it look like a suicide. But my boyfriend Detective Lachlan Flint and I have uncovered his gruesome methods and are on his trail. As the bodies pile up, we know we have to stop him. What else? Oh, my cousin showed up, pregnant as well, disowned by my grandparents. An old flame of Felicity's is driving a wedge between her and Jensen. And Lachlan and I are struggling with our vow not to share blood. We know that if we do, we'll rekindle blood bond, and we aren't going back to that darkness. But every time we touch, it tempts us. So we're not touching so much these days. And I miss touching him. I miss kissing him. I miss all of him.

Customer Reviews

Man, I freaking love these stories. Such a great storyline, the characters suck you completely in and you can't help falling in love with them. There was nothing about this book that I didn't like. I cannot

wait to read the next book!

I didn't really enjoy the last book, and this one seemed to be going back to the style of the first two books that I really liked, but I just couldn't read past a statement about African Americans committing the most crime. I don't feel comfortable with people making comments like that and couldn't get back in the groove of the book.

This series of books is insanely good I could not stop reading . This author is awesome absolutely one of the best I have had the pleasure of reading I highly recommend this to everyone.

I'm wondering where Val St. Crowe will take it from here. I really enjoyed the book, and Penny can never stay out of anything. Lachlan as usual was his brilliant detective self.

Good for even young teens. The series keeps a person interested with all the characters in play. New stories can emerged from them and continue their own spin off series.
