Customer Reviews

I went into reading this thinking I knew all I needed to know about self publishing erotica, and actually realized I had more to learn. Definitely a worthwhile investment. The author is very straightforward and also very thorough, presenting each topic in a very organized, concise fashion. It really is a fantastic compilation of all the steps and strategies to self-publishing erotica.

I bought three books on writing erotica when I bought this one; this is by far my favorite of the three. The information is not vague, but concise and truly useful. Jamie covers several subjects, many of which pertain not only to writing erotica but to writing across genres. The section on organization alone is worth the price of the book! To top it off, the author has a wonderful, engaging writing style. I am a published writer, and just wanted an info resource, but I found her tone and worth ethic so friendly and admirable, I went out and bought a few of her books, and I'm looking forward to reading those. If they are as well-done as this was, they should be a step above most of the erotica out there!

Author does a great job of explaining what works and why. Readers who want to better understand the business side of erotica publishing won't be disappointed.
