Customer Reviews

I had purchased a variety of children's books to polish my craft, and this one seemed to really stand out above the rest. I am an amateur writer, but I hope to be a professional someday. This book really helped me to put things into perspective about the nature of writers, the do's and don'ts of writing, and many helpful tips to keep in mind. I've read it through three times and I'm still not bored with it. The author is very down-to-earth and easy to understand. I rate this book one of the best!
