Customer Reviews

Uh. Um.. Ur... Oh my gosh! Where do I start? Okay... Uh... Alright, I'll put it this way... Okay. Here it goes... I've never read anything like this in my life and it's the most awesome book I ever read. Seriously. Though I must say that it's extremely technical and most people, probably not even a medical doctor could follow it without a medical text handy. LOL! But in my case, I'm already open to theosophy and electromagnetism, so I was able to follow along pretty good by simply looking up the

words for it's meaning with my Kindle. Smooth sailing. And the thing about it is that I don't think you really have to follow what he's saying because what he's saying is already a dormant knowledge in all of us so hearing him break it down sparks an aliveness in you while you read. It's a fact that reading higher truths automatically sharpens your mind and changes you within. As for instance, about a month ago I was really terrible at playing checkers and couldn't win a game against the computer to save my life, but since I started getting deep into theosophy, my senses just opened up and I started playing checkers all of a sudden like a seasoned pro, and now the computer can't win a game on me to save it's life! LOL! I'm telling y'all that the higher reading did that to me, and this book Downloads From the Nine really cracked me open! Just as the author said it will! He explained what I'll be feeling and when and I did just when he said it! Amazing! Beyond the heavy technicality of the book, I think it's still clear to every reader that he's talking about changes that the life-force is in the process of making on all of us. I've gotten that much out of theosophy so far so I know it's true. And what he's telling us is what we can do to speed up the process and get noticeable results right now.
