The Enemy (Jack Reacher, Book 8)

Synopsis

BONUS: This edition contains an excerpt from Lee Childâ™s *Make Me. Jack Reacher. Hero.* Loner. Soldier. Soldierâ™s son. An elite military cop, he was one of the armyâ™s brightest stars. But in every copâ™s life there is a turning point. One case. One messy, tangled case that can shatter a career. Turn a lawman into a renegade. And make him question words like honor, valor, and duty. For Jack Reacher, this is that case. New Yearâ™s Day, 1990. The Berlin Wall is coming down. The world is changing. And in a North Carolina âœhot-sheetsâ• motel, a two-star general is found dead. His briefcase is missing. Nobody knows what was in it. Within minutes Jack Reacher has his orders: Control the situation. But this situation canâ™t be controlled. Within hours the generalâ™s wife is murdered hundreds of miles away. Then the dominoes really start to fall. Two Special Forces soldiersâ™ the toughest of the toughâ™ are taken down, one at a time. Top military commanders are moved from place to place in a bizarre game of chess. And somewhere inside the vast worldwide fortress that is the U.S. Army, Jack Reacherâ™ an ordinarily untouchable investigator for the 110th Special Unitâ™ is being set up as a fall guy with the worst enemies a man can have. But Reacher wonâ™t quit. Heâ™s fighting a new kind of war. And heâ™s taking a young female lieutenant with him on a deadly hunt that leads them from the ragged edges of a rural army post to the winding streets of Paris to a confrontation with an enemy he didnâ™t know he had. With his French-born mother dyingâ™ and divulging to her son one last, stunning secretâ™ Reacher is forced to question everything he once believedâ™ about his family, his career, his loyaltiesâ™ and himself. Because this soldierâ™s son is on his way into the darkness, where he finds a tangled drama of desperate desires and violent deathâ™ and a conspiracy more chilling, ingenious, and treacherous than anyone could have guessed.

Customer Reviews

In the taut, staccato style reminiscent of Raymond Chandler or John D. MacDonald, Lee Child presents his eighth Jack Reacher novel, a police procedural with a difference: Reacher is an MP, an army Major at Fort Bird, North Carolina, obedient to a different set of rules and objectives. Recently transferred from Panama to be MP Executive Officer, Reacher must immediately investigate the death of a two-star general who has died in a seedy, nearby motel, presumably with a prostitute. His briefcase, containing the agenda for a top-secret conference in California, has disappeared, and when Reacher and his aide, Lt. Summer, go to break the news to the general's wife, they find her dead, too, bludgeoned to death with a crowbar within hours of the general's death. With almost military precision, dramatic complications unfold, and Reacher soon finds himself facing two new deaths, one of which is a gruesome butchering which takes place on the base. Ordered by superiors to cover up the murder by calling it a "training accident," Reacher and his aide investigate surreptitiously, soon discovering that his MP XO counterparts at twenty more bases throughout the world have also been newly appointed to their positions, all of them on or around December 29. Obvious questions arise about who is pulling the strings, who has the power to transfer so many MPs to new posts, and why someone would want to do so. Child is a meticulous writer whose plot follows a strict chronological order and moves at a breath-taking pace, with one dramatic scene following hard on the heels of another. Reacher and his aide Summer are not fully developed characters, but they do not need to be as they struggle to learn who is controlling the grisly chess game which has resulted in four deaths.

Lee Child writes books the way Miles Davis played music. Every composition contains recognizable elements, and yet every composition is completely different. In a Lee Child composition, some of the recognizable elements are: clean, elegant prose; a tight plot; abundant twists and turns; and more

than one heart stopping surprise. An added element in "The Enemy" is that this book not only stops the heart, but tugs at the heartstrings. The eighth Jack Reacher novel, "The Enemy" takes place in 1990, as the Berlin Wall is coming down and the world is drastically changing. In the Army, Jack Reacher's life-long home, change is not good. It's an enemy to be defeated by any means necessary. Reacher is a man who has dedicated his life to doing the right thing, to protecting the Army. Now he's faced with an awful task: he must protect the Army from itself. In seven previous Jack Reacher novels, we've come to know him as a loner, a man who cannot and will not end his chosen life of wandering isolation. In "The Enemy" we meet a younger Reacher, not yet hardened by the choices this case will force upon him. This Reacher is just a bit warmer, just a bit more accessible, with an easier sense of humor. When he's inexplicably transferred from Panama to Fort Bird, North Carolina, Reacher doesn't think much of it - hey, it's the Army - but he soon discovers that this is no ordinary assignment. A heart attack victim at the local no-tell motel is a two-star general. The general's wife is found murdered. Reacher's commanding officer is replaced, suspiciously, by a vicious idiot who wants nothing more than to make Reacher the fall guy for the entire mess. And in Paris, Reacher's mother is very, very ill.
