# Dictionary Of Veterinary Nursing, 3e

## Synopsis

The third edition of this best selling dictionary has been expanded and updated to include new definitions reflecting changes within the veterinary nursing profession, additional illustrations as well as revised appendices. Intended specifically for members of the veterinary nursing profession, all aspects of the curriculum are covered making this a comprehensive quick reference source for nurses working in a busy practice. Provides detailed explanations for nearly 4000 definitions, ensuring that all aspects of the curriculum are covered. Useful line diagrams aid learning and understanding. Focuses on terms relevant to companion and pet animals – including exotics, terms from the equine field, animal behaviour, etc. Appendices provide a quick reference source for frequently needed data. Fully updated throughout retaining the focus of defining terms relative to veterinary nursing. Inclusion of 2nd colour to enhance user-friendliness and navigability. Inclusion of new terms in: equine, animal behaviour, alternative medicine and expand the terms on exotics. Inclusion of colour plates showing blood cells. Inclusion of new drug names and listing useful websites in the appendices for the most-up-to-date information on this

## Customer Reviews

This dictionary was recommended to me by my instuctor. The size is great I can throw it my back pack. However it is lacking alot of terms. I have that all the words are not spelled correctly. I find myself having to look alot of terms up online. If you are a student or in the veterinary medical field and want a go to book this is not it. If you are an everyday person looking for definitions this would

probably work for you.

My daughter needed this book as part of her studies into Veterinary Nursing. While it was essential reading it was also a book she enjoyed and still refers to despite achieving her qualifications.

It is a great book and gives you great definitions of words, but there were some words that I could not find in this book. I wish it would have given how to pronounce the words as well.
