The Complete Idiot's Guide To Kabbalah (Complete Idiot's Guides (Lifestyle Paperback))

Synopsis

What the Kabbalah can do for you? According to the authors of this comprehensive guide, the Kabbalah that Madonna popularized is far from authentic. In fact, the Kabbalah is much bigger and better. Here, readers will discover how it can deliver money, love, health, and many other things. An international authority on authentic Kabbalah was a consultant for this book. Blends religion/spirituality with New Age mysticism

Customer Reviews

Something completely different about this book, compared to every other book by Rav Michael Laitman, PhD is that it is not only a profound exposition on human nature, perception, evolution, the creation of the universe, the present-day global crisis and our destiny, but that this book is also entertaining and fun to read. It has many sidebars and alerts combined with the text which make what seemed like complex terms and definitions, very easy to understand. This book helped me define words that sometimes aren't so clear upon the first reading and in his other books. You can see that a lot of work has gone into this book to really say to somebody walking on the street: "Hey, do you know about Kabbalah? Do you know what you can get from it? No really, it's not all those

things you think it is or that you hear about it... Kabbalah is something completely different to all that, and here you'll find out why. With this book, you'll start working out how you can already start using Kabbalah to make profound changes in your life."In the beginning of the book, there is a lot of investment in describing what Kabbalah is through delving into what Kabbalah is not. Kabbalah is compared to religion, mysticism, magic, numerology, tarot cards and all sorts of things you'll find it associated with if you look around. Because of this, The Complete Idiot's Guide to Kabbalah gives a much more complete definition of Kabbalah, when you start seeing what specifically differentiates it from other methods. The co-writing with Collin Canright must be the reason for the entertaining and fun aspect of the book, with examples and analogies I haven't seen in his previous books, which really do "guide" the reader.

Just when you thought that there was no easy way to introduce the subject of Kabbalah to the average person we discover the book, "The Complete Idiot's Guide to Kabbalah."In this book the subject of Kabbalah is introduced to the average person who has never been exposed to the study of Judaism because the BAN AGAINST STUDYING KABBALAH HAS BEEN LIFTED (yes it was kept away from people for along time) and now everyone can read and learn about it; all that is needed is the desire for answers to your questions.If you wanted a clean and clear cut way to be introduced to the vast and wonderful study of Kabbalah, this is the book you've been waiting for.You won't be burdened with overly mystic jargon; instead an ancient subject is exposed and given relevance in our chaotic modern time.The book is divided into sections that you can read chronologically or if you want to skip around and check out a particular subject you can also do that.However, I recommend going in sequence as the subjects in each section builds upon each other to give you a more coherent understanding of Kabbalah.An example of one of the subjects is the chapter called "Debunking the Myths."Here it explains all the beliefs and myths that have surrounded Kabbalah for centuries and clarifies why Kabbalah is not a religion or magic or a New Age thing.The book even manages to give a condensed history of Kabbalah in the section called "Kabbalah from Adam to the present in a dozen pages." Whew that's what I call really condensing time!As you move along the chapters you will notice small separate sidebars; "Kab-Trivia", "definitions" or "red alerts". Each of the sidebars is for the purpose of educating and entertaining the reader.
