Chemistry In Focus: A Molecular View Of Our World (Available Titles OWL)

Synopsis

Thoroughly revised and updated with the latest research developments, CHEMISTRY IN FOCUS: A MOLECULAR VIEW OF OUR WORLD, 4e develops students' appreciation for the molecular world and stresses the fundamental role it plays in their daily lives. The text helps students understand the major scientific, technological, and environmental issues affecting society by clearly identifying and explaining connections between the molecular world and microscopic world--as well as between principles and applications. Renowned for his student-friendly approach, Dr. Tro helps readers understand the importance and relevance of chemistry to their world. The text's comprehensive coverage includes unique chapters on Nanotech, Light/Color, and more. Innovative study aids maximize learning.

Book Information

Series: Available Titles OWL

Paperback: 640 pages

Publisher: Brooks Cole; 4 edition (August 13, 2008)

Language: English

ISBN-10: 0495605476

ISBN-13: 978-0495605478

Product Dimensions: 10.7 x 8.4 x 1 inches

Shipping Weight: 2.8 pounds

Average Customer Review: 4.3 out of 5 starsÂ Â See all reviewsÂ (3 customer reviews)

Customer Reviews

This wasn't the required book for my course, but my professor suggested it as an alternative (he wasn't a fan of the one the college specified) and I was able to buy this for \$190 less than the other book. Everything is clearly laid out and well explained.

Pretty good for a required text book.

Great!
